

# SERVICE DATA SHEET

MORE THAN A PRODUCT.

ARTICLE NO.: 56550

SERVICE NAME: SENSOR CLEANING SMALL SENSORS SERVICES

## Scope of service / Deliverables

Cleaning of the sensor glazing in a particle-controlled cleanroom environment (Laminar Flow Box ISO Class 5). Valid for: Line Scan all models & Area Scan up to 11".

- Item can only be ordered in conjunction with SERVICE CAM OPT ASSEMBLY
- Cleaning specification according to STEMMER IMAGING specification
- Reference image is kept at STEMMER IMAGING for 2 years
- Suitable packaging with corresponding label
- This service includes sensor cleaning

In the event of a repair (within or outside of the warranty), this service will be provided and charged again.

## Limitations / Not in Scope

- Only in connection with SERVICE CAM OPT ASSEMBLY (if booked without assembly, cleanliness can no longer be guaranteed, as potential soiling after delivery cannot be ruled out)
- Not applicable for sensors without protective glass as well as for specific UV-sensitive sensors
- Subject to technical feasibility

## Service Warranty

- When booking in connection with SERVICE CAM OPT ASSEMBLY, STEMMER IMAGING assumes STEMMER IMAGING guarantees cleanliness as defined above.
- When booking without assembly, no guarantee for cleanliness can be assumed, as potential soiling may occur after delivery to the customer.

## Estimated Order Fulfilment time

3 working days (for quantities <= 5)
