

# SERVICE DATA SHEET

MORE THAN A PRODUCT.

ARTICEL NO.: **56518**

SERVICE NAME: **CAMERA ASSEMBLY SERVICES**

## Scope of service / Deliverables

Mounting of a standard lens (e.g. adapter, tube, lens, filter) on a C-mount or CS-mount area scan camera according to customer requirements.

- ✔ Sealing of all mounting points on the camera
- ✔ Setting the focus ring to the „infinity“ stop and the aperture ring to max. aperture
- ✔ Checking of sensor and lens cleanliness according to STEMMER IMAGING standard with regard to freedom from particles in the optical path
- ✔ Basic function test
- ✔ Suitable packaging and labelling
- ✔ Subject to technical feasibility
- ✔ One working unit corresponds to the assembly of one set

In the event of a repair (within or outside of the warranty), this service will be will be provided and charged again.

## Limitations / Not in Scope

- ✔ Mounting of a maximum of 5 components (mount, tube, optics, filter, camera)
- ✔ Mechanical adjustments only -> no focusing (book separately if necessary)
- ✔ If specific Sensor Clean requirement (>aperture F4) is necessary, please book Sensor Clean separately
- ✔ Subject to technical feasibility

## Service Warranty

- ✔ STEMMER IMAGING guarantees the correct assembly of the unit into a complete functional complete unit (expires if seal is broken)
- ✔ STEMMER IMAGING does not guarantee the compatibility of the individual components or the suitability of the complete unit for the intended use.

## Estimated Order Fulfilment time

3 working days (for quantities <= 10)
