

# SERVICE DATA SHEET

MORE THAN A PRODUCT.

ARTICEL NO.: **56549**

SERVICE NAME: **CAM OPT FOCUSING SERVICES**

## Scope of service / Deliverables

Additional option to the SERVICE CAM OPT ASSEMBLY, this item expands Assembly services by a focusing according to specific customer specifications:

- Service can only be ordered in conjunction with SERVICE CAM OPT ASSEMBLY
- Collimator-based focusing or traditional target focusing depending on the lens model
- One working unit corresponds to the focusing of one camera unit

In the event of a repair (within or outside of the warranty), this service will be provided and charged again.

## Limitations / Not in Scope

- If specific Sensor Clean requirement (>aperture F4) required, please book Sensor Clean services separately
- Subject to technical feasibility

## Service Warranty

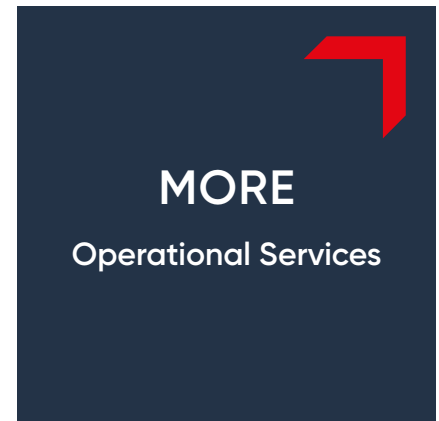

- STEMMER IMAGING guarantees the correct setting of the focus and aperture ring (verifiable via reference image).

## Estimated Order Fulfilment time

3 working days (for quantities <= 10)
